PROFILE

Motivated Mathematical Science and Computer Science student with strong problem-solving skills and a growing foundation in programming and data analysis. Passionate about learning through hands-on projects, internships, and real-world applications.

EDUCATION

University of Ghana, Legon

BSc. Mathematical Science (Combined Major: Computer Science)

Expected Graduation: 2029

Relevant Coursework:

- Programming with Python
 - Introduction to Computer Science
 - Discrete Mathematics
 - Calculus & Linear Algebra
 - Probability and Statistics
-

TECHNICAL SKILLS

- **Programming:** Python (beginner–intermediate), basic JavaScript
 - **Data & Tools:** Python for Data Science (NumPy, Pandas – beginner)
 - **Web & Tech:** GitHub, basic HTML/CSS
 - **Software:** Microsoft Word, Excel, PowerPoint
 - **Other:** Problem-solving, logical reasoning
-

PROJECTS & PRACTICAL EXPERIENCE

Python for Data Science (Self-Learning Projects)

- Worked on basic data analysis exercises using Python
- Practiced data cleaning, simple visualizations, and calculations

- Developed strong understanding of writing clean and readable code

Technical Support & IT Assistance (Informal Experience)

- Repaired and configured computers and mobile devices for teachers, family, and peers
 - Installed operating systems, fixed software issues, and provided basic user training
 - Assisted church and school members with technical setups and digital tools
-

LEADERSHIP & ACTIVITIES

- Active member of academic quiz teams (NSMQ background)
 - Peer tutor and group leader during senior high school
 - Assisted classmates with mathematics, science, and technology-related topics
 - Church involvement: sound engineering, drumming, and technical support
-

SOFT SKILLS

- Strong analytical thinking
 - Quick learner and self-motivated
 - Team collaboration
 - Clear communication
 - Time management and discipline
-

CAREER INTERESTS

- Software Development
 - Data Science & Analytics
 - Technology Internships
 - Problem-solving and research-based roles
-
